WORK EXPERIENCE

FUN-GI GAMES — Torrance, CA

Concept & UI/UX Artist — Jun 2022 – Present

Unannounced Project

- Converted high-level briefs into clear turnarounds, callout sheets, and color options for 3D modelers' clarity.
- Painted master color keys and lighting studies to lock in emotional tone and visual consistency across early environment concepts.
- Designed cohesive interactive prop concepts tailored to support core gameplay mechanics and player readability.

Dodgeball Dojo - Mobile Game

- Built rapid-iteration sketching workflows for environment exploration, allowing the team to test and lock in background layouts before production quickly.
- Prototyped screen layouts and tap-state interactions to establish intuitive navigation and immediate visual feedback when players interact with menus.
- Storyboarded character animation states and movement arcs to define hit-boxes and pacing before rigging and implementation.
- Built standardized 9-sliced texture libraries and modular UI templates, resolving UI scaling issues across mobile aspect ratios and reducing memory footprint.

House Flip - Mobile Game

- Adapted corporate brand guidelines (including Walmart) into the game's core art style while maintaining full IP compliance.
- Delivered 10+ production-ready UI, environment, and marketing assets per month in 2-week sprint cycles, consistently on time.
- Developed culturally specific and period-accurate room concepts, balancing player instructional clarity with stylized architectural aesthetics.
- Built reusable UI templates and style guides for recurring seasonal events, cutting down production turnaround time for live updates.

FREESTYLE KOMICS — Columbus, OH

Illustration Intern — May 2020 - Aug 2020

Hotshot - Comic Series

- Developed high-impact sequential visual assets, storyboards, and promotional illustrations aligned tightly with established brand guidelines and core engagement themes.
- Managed multiple concurrent, complex asset workstreams under aggressive production schedules, showcasing exceptional visual hierarchy and readability.

VOLUNTEER

ASIANS IN ANIMATION — Jan 2023 - May 2026

- **2023:** Invited to share artistic journey, portfolio preparation tips, and industry insights in an open community talk and Q&A session.
- **2026:** Contributed color and design ideas alongside fellow volunteer artists for an unpaid community project elevating Asian voices in the creative industry.

SKILLS

- **Tools & Software:** Blender, ZBrush, Photoshop, Illustrator, Figma, Clip Studio Paint
- **Game Engines:** Unity (Asset & UI Integration, 9-Slicing)
- **Art Development:** Character & Environment Design, Look Dev, World-Building, Set Layouts, Color Keys, UI Elements & Icons
- **Technical & Production:** 2D/3D Hybrid Workflows, Asset Optimization, Turnaround Sheets, Material Callouts
